-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

### **DETAILED ACTION**

Applicant's election of Group I including claims 109-148 and 151 in the reply filed on 4-15-2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the following formal matters:

Claims 117-136 are objected to because they all depend directly or indirectly upon a canceled claim 108 due to an apparent oversight by the applicant. It is suggested that each of claims 117, 121, 127 and 128 be changed to depend on independent claim 109 in order to correct this deficiency.

Claims 109-116, 137-148 and 151 distinguish over the prior art of record and thus are allowed.

Claims 117-136, if amended to overcome the above objection, would also be allowed.

The following is an examiner's statement indicating allowable subject matter:

With respect to claims 109 and 151, the overall structure of a support system for supporting a printing screen unit in a screen printing machine as claimed including particularly the control unit configured to operate the tensioning mechanism to tension the printing screen to a first tension in a printing phase in printing printing medium onto a workpiece and a second tension, which is lower than the first tension, in a separation phase in separating the printing screen unit and the workpiece is not taught or suggested by the prior art of record.

With respect to claim 137, the method of supporting a printing screen unit in a screen printing machine as claimed including particularly the steps of tensioning the printing screen to a first tension; printing printing medium onto a workpiece through the pattern of apertures in the printing screen; tensioning the printing screen to a second tension, which is lower than the first tension; and separating the printing screen unit from the workpiece is not taught or suggested by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
